

ThetaHealing® Basic DNA

Hello beautiful soul,

Please find below a description and some more information in connection with this seminar I will be teaching in Berlin from September 14th to 16th, 2018.

Would you like to FREE yourself from subconscious beliefs that are holding you back, CREATE a fulfilling life you really want to live deep down in your HEART and just BE and enjoy who YOU truly are?

Theta Healing® is a powerful meditation and energy healing modality that provides you with amazing techniques for self development and personal transformation. It will enable you to quickly identify limiting beliefs and feelings – on the core, genetic, historic and soul level –, dissolve deeply held blocks and instantly reprogram the unconscious mind.

In this seminar, you will experience how to easily connect with the essence of pure unconditional love and the energy of Creator of All that is – or Divine Source Energy or whatever your word for this energy is. You will enhance your intuitive abilities, learn and practice powerful techniques to create happiness and abundance in all areas of your life, and take home a bunch of highly effective self-empowering tools.

The ThetaHealing® Basic DNA seminar is the foundation of basically all other ThetaHealing® classes. I will teach the seminar in September in English. Come and join us!

If you would like to register please send me an email with your name, address and telephone number and you will receive the details for transfer of the seminar fee of €451 to reserve your spot.

Please see below for additional information. In case you have any other questions you are welcome to get in touch with me.

I am looking forward to getting to know you :-)

Love ♥

Susanne

ThetaHealing® Headquarters' seminar description

The Basic DNA introduces the ThetaHealing techniques and focuses on activating the 12 strands of DNA within each participant.

The heart of this seminar is the practice of techniques that allow you to change life patterns held in place by core, genetic, historic and soul beliefs, either self inflicted or externally imposed. ThetaHealing we believe you inherit beliefs and emotions from your ancestors. This level we call the genetic level

The students experience an opening to the Unconditional Love of the Creator. The student will learn to identify his/her own beliefs as well as to practice pulling them for others in the seminar. This practice can quickly reveal systems of belief, showing the body how to replace limiting beliefs or feelings with positive ones.

Recent articles have proven genetic beliefs can be passed down.

Other topics and exercises include:

- Learn why we create things in our life and what we learn from it
- Learn discernment when working with guides and guardian angels
- Introduction to manifesting in your life
- Future readings
- Balancing your moods
- Soul mates, waywards and implants
- Seven Planes of Existence
- The Power of Connecting to the Creator of All the Is

The ThetaHealing Basic DNA seminar is the first seminar to certify you as a ThetaHealing Practitioner. The Basic DNA and Advanced DNA are the two main seminars that will give you the main tools to start as a ThetaHealer.
